| Q  | LO      | Description                                                                                                              | Level         | %  |
|----|---------|--------------------------------------------------------------------------------------------------------------------------|---------------|----|
| 20 | SST 833 | Explain the role of government in regulating economic activities.                                                        | At-grade      | 57 |
| Q  | LO      | Description                                                                                                              | Level         | %  |
| 1  | SCI 801 | Show the difference between material and living things (such as natural and man-made fibres, contact and non-contact for | At-grade      | 63 |
| 2  | SCI 802 | Materials and living things will be classified based on their properties, for example - metals and non-metals, kharif an | At-grade      | 74 |
| 3  | SCI 802 | Materials and living things will be classified based on their properties, for example - metals and non-metals, kharif an | At-grade      | 65 |
| 4  | SCI 703 | This section involves the classification of materials and organisms based on their qualities. For example, it includes a | Grade-minus-1 | 52 |
| 6  | SCI 705 | This involves relating processes and events to their causes. Examples include the relationship between wind speed and ai | Grade-minus-1 | 53 |
| 7  | SCI 805 | Explain processes and phenomena - reproduction of humans and animals, creation and transmission of sound, chemical effec | At-grade      | 72 |
| 8  | SCI 805 | Explain processes and phenomena - reproduction of humans and animals, creation and transmission of sound, chemical effec | At-grade      | 52 |
| 9  | SCI 707 | This section deals with the application of chemical reactions. Examples include acid-base reactions, rusting, and identi | Grade-minus-1 | 64 |
| 10 | SCI 707 | This section deals with the application of chemical reactions. Examples include acid-base reactions, rusting, and identi | Grade-minus-1 | 67 |
| 11 | SCI 807 | Measure the angle of incidence and angle of reflection                                                                   | At-grade      | 51 |
| 12 | SCI 807 | Measure the angle of incidence and angle of reflection                                                                   | At-grade      | 51 |
| 13 | SCI 709 | This involves creating and interpreting diagrams, such as anatomical diagrams of humans and plants, as well as preparati | Grade-minus-1 | 45 |
| 15 | SCI 811 | Apply the learning of scientific concepts to daily life, eg., - purifying water, separating biodegradable and non-biodeg | At-grade      | 67 |
| 16 | SCI 712 | Discussing the story of scientific discoveries and selecting important ones.                                             | Grade-minus-1 | 55 |
| 17 | SCI 713 | Understanding concepts related to environmental science, such as countering acidity in soil, conducting soil tests, and  | Grade-minus-1 | 74 |
| 18 | SCI 714 | Efforts will be made towards environmental protection, such as maintaining cleanliness in general places, reducing pollu | Grade-minus-1 | 73 |
| 19 | SCI 716 | Discussions will cover sustainability, resource conservation, cooperation, and overcoming fear and superstition.         | Grade-minus-1 | 44 |
| 20 | SCI 716 | Discussions will cover sustainability, resource conservation, cooperation, and overcoming fear and superstition.         | Grade-minus-1 | 50 |
